

The Inner Consciousness: a Course of Lessons on the Inner Planes of the Mind, Intuition, Instinct [The Secret Law of Attraction Library]

The Inner Consciousness, by William Walker Atkinson represents some of the original New Thought material that reveals the creative power of thought and intention. In this case, the book centers on the idea that there are higher levels of consciousness and meaning that we can become in tune with through meditation and concentration. Atkinson starts by describing the different centers of the mind and uses imagery to help his readers understand how to reach their inner consciousness and use it to its full potential. American writer WILLIAM WALKER ATKINSON (1862-1932) was editor of the popular magazine New Thought from 1901 to 1905 and editor of the journal Advanced Thought from 1916 to 1919. He authored dozens of New Thought books under numerous pseudonyms.
