

Jean-Francois Lyotard (Modern Cultural Theorists)

The French theorist, Jean-Francois Lyotard, is one of the major contemporary thinkers whose work seriously challenged foundationalist philosophy. This volume provides a survey of his works and comments on his postmodernism and Marxism, in particular through his most influential book, *The Postmodern Condition*. Attention is also given to his more specialized philosophical and political writings, which are sometimes marginalized in more general commentaries. The work engages with Lyotardean concepts such as, grand narrative, differend, paganism and svelteness which have been generally adopted throughout the field of cultural enquiry.
