

The Nervous Housewife

The Nervous Housewife is surely a phenomenon of the present-day American home. In greater or less degree she is in every mans home; nor is she alone the rich Housewife with too little to do, for though riches do not protect, poverty predisposes, and the poor Housewife is far more frequently the victim of this disease of occupation. Every practicing physician, every hospital clinic, finds her a problem, evoking pity, concern, exasperation, and despair.
