

## The Warden (Illustrated)

The Warden is the intriguing tale of a zealous young reformer upsetting the comfortable arrangements at an almshouse for elderly men and it chronicles the wide-ranging repercussions of his actions along with a romantic sub-plot. Trollope's flawless writing and character descriptions draw readers in today just as they would have been when the book was first published well over a century ago. This meticulous digital edition from Heritage Illustrated Publishing is a faithful reproduction of the original text and is beautifully illustrated with a number of atmospheric historical paintings that reflect the mood of the novel.
