

Tales Of The Tropics: Stories Of Hawaii, Guatemala, and Mexico

This is a book about one person's experiences, about the intrigue, the confusion, and the culture shock of living in a foreign country or an unfamiliar culture. It is a kaleidoscope of what could happen, or what did happen, when our life-long value system and our commonplace expectations are upended, and we are forced by circumstances we can't control to make decisions we don't understand. We are forced to choose among compromise, evasion, defiance, or some version of all three, and we begin to expect the unexpected.
