

Twenty Thousand Leagues Under The Seas

Professor Pierre Aronnax is part of a team sent to investigate reports of a sea monster suspected to be a narwhal off the coast of New York. They soon discover that the monster is in fact a submarine called the Nautilus, headed by Captain Nemo, an enigmatic man who has withdrawn from the world. When Aronnax and his team are taken prisoner by Nemo, the Nautilus heads into the deepest fathoms of the seas where adventure and discovery await. *Twenty Thousand Leagues Under the Seas* is a science-fiction classic that has been adapted into numerous films, television episodes, comic books and graphic novels. This edition uses the 1991 F. P. Walter translation which restores a great deal of material that was cut in the original English translations of the work. HarperPerennial Classics brings great works of literature to life in digital format, upholding the highest standards in ebook production and celebrating reading in all its forms. Look for more titles in the HarperPerennial Classics collection to build your digital library.
