

## Unrestrained

Scout n ColeCole had no trouble attracting women. The Russell men were all blessed physically, and Cole was no exception. However, finding a woman who could match his passion for the wilderness as well as ignite passions of a different kind in his life was the problem. Scout Windrider knew that love wasnt for her. Shed yet to encounter a man who took her breath away, and figured it was just as well. What man would want to hook up with a woman who spent most of her life in the wild, tracking mountain lions? Neither of them could have foreseen being paired in a no-kill hunt turned deadly that would force them to confront an explosive attraction hot enough to consume them with its heat. Faced with a murderous madman intent on exacting revenge against the Windrider family, Scout and Cole take a leap of faith with each other, and discover something relegated to myth and legend prove to be true, that will touch their lives in a way that will change them forever. Conn n CalebSingle and loving it! Thats Caleb, the only Russell man not yet hitched, and thats fine with him. Lifes good-if a little predictable. Until a little lady drops out of the sky and into his kayak, nearly drowning him in the process. But getting wet is the least of his problems. Seems Calebs going to follow his brothers when it comes to fixing on kinda offbeat women, because Conn isnt like any woman hes ever known. But then hes never met a woman who isnt from this world. And he sure as shit hasnt ever met one who can put as much starch in his shorts and fire in his blood as Conn can with just a look.
