

Close Encounters: Taken by Alien Cavemen (Alien/Monster Erotica)

Susan Riley couldn't be more thrilled. She is the lead Science Officer on a ship that's on a five-year deep space exploration mission; it's the first of its kind and it's a dream come true for her. So imagine her excitement when she gets the opportunity to visit an unexplored planet to collect prime alien vegetation samples for her research. Unfortunately, things don't go as planned. A magnetically charged electrical storm renders her equipment useless, forcing her to stay on the planet's surface until morning. Alone, scared and lost, Susan must now find a way to survive the night in the savage alien forest. But she soon discovers that she's not alone...The big, primitive alien locals soon find her trespassing through their jungles and they don't take kindly to strangers. Fortunately, they seem to have a taste for human females and they fully intend on exploring and tasting every inch of her body until morning. Warning: Taken by Alien Cavemen is a 10,000+ word short story that includes adult situations between a human female and two hulking lusty alien cavemen who have an insatiable taste for human women.
