

This book offers a sampling of cytological features and patterns as an aid to study, revision and continuing education for veterinarians in practice and training, for veterinary students, nurses, and technicians. The cases are presented randomly, are illustrated by 267 photomicrographs in full color, and appear as self-assessment questions and detailed explanatory answers. Species covered include the dog, the cat, and the horse, with additional material on the cow.

The Homer Book (Simpsons Library of Wisdom), Holes, Florida Ufos & Extraterrestrials: A Look at the Sightings & Science in Our State (Carole Marsh Florida Books), The Mysteries of Mithra, Is dit een mens (Dutch Edition), Advancing the Human Rights of Women, Bo Jackson (Sports Superstars),
