

Wild Cat: Wild Thing (Wild Things)

Shes a real wild catin and out of bed.Wild Things, Book 2Alexandras brother has changed since his mates death, but shes certain hes no cattle killer. When she gets the chance to track down the real culprit, she jumps at the opportunity to clear the suspicions hovering over his head. And maybe ease her own grief. Connor would do anything for Alexeven be her mate if she would only ask. Instead he settles for coming with her, ready to protect her from the rogue as well as human hunters. When another tracker shows up accusing them of the crime, though, theres no stopping Alexs instant attraction to the lone werewolf.Dirk is on the same mission, but for a different reason: His pack owes one of the ranchers a favor. Once he finds Alex examining the latest bovine victim, though, he shifts his goals to include her mile-long legs wrapped around his waist. If only he can get past her interfering friend.Trigger-happy hunters send them all into hiding, where huddling for warmth turns hotter than expected. The heat burns away any pretense that this is a sexual romp. Its a destined love that a killer could destroyunless Alex makes a heartbreaking choice.Warning: Beware of claws, fangs and weapons of a very personal nature. The sex is hot and raw, including the kind of threesome youd love to have. Oh, yeah, and a heart-wrenching plot.
