

Learn To Cook Pizza & Pasta

Learn To Cook Pizza & Pasta by Nita Mehta
When we think of Italian food, the first thing that comes to our mind, is the Pizza. If you like a thin crisp base, the recipe is given at the end of the book. The pizza can be prepared and frozen in its unbaked form. Put frozen pizza into a hot oven, just allow some extra time (10 minutes) for cooking. You may also buy the ready made base from the market and enjoy it with various topping combinations given. The most important part of the pizza is to see that it is nice and crisp. To check if it is ready when in the oven, we usually see that the cheese on the top is melted. But this alone is not enough. Check the bottom of the pizza base to see that it is light golden and crisp on the edges. To make a crisp pizza, always remember to place it on a wire rack of the oven and not on a baking tray, so that the heat reaches the pizza base directly through the wire rack and makes it crisp.

Pasta, from relatively humble beginnings as the Friday night special of Spaghetti Bolognese, (Bologna pronounced as Bologna, a city in Italy which I recently visited and had the opportunity to taste delicious pasta), has evolved over the years to the point at which it is now a popular food in India. The colourful pasta is lovely to look at and certainly delicious to eat when cooked the right way. Whether it is simply boiled and served with some cheese and garlic or formed into a more intricate dish, pasta is never boring.

About the Author :-Nita Mehta is a home science graduate from Lady Irwin College, Delhi University and a Gold Medalist in M.Sc. (Food & Nutrition).
