

What doesnt kill us

Lucy Reynolds has spent her life running from her inner demons and now that she's away at university, all she wants is to forget. But memories of her abuse-ridden childhood continue to plague her. In order to protect herself, Lucy has mastered the art of remaining seemingly anonymous, vowing to keep her secrets safe. When a secret society sets their sights on her and another young woman, both girls will be powerless to resist their advances. When the other young woman goes missing, Lucy wonders if she'll be next. Soon, dark secrets are shared, but is Lucy prepared for what she'll find out? Are some secrets just too horrible to reveal?
