His passion for women keeps him moving between his many mansions all over the world. After centuries of different lovers, he's never found one he wanted to keep with him for the eternity that is his to live. Though a fairytale life on the outside, he lives a lonely existence. While staying in New York, he finds a woman who intrigues him more than any other ever has. Snow Sinclair is a savvy business woman and has no intentions of giving in to the well-known playboy. Her determination to keep him only as her client proves harder for Sebastian to penetrate than he imagined. What she believes is only a lust for her proves to be much more than Sebastian ever thought possible for his eternal life. If only he could get her to agree, for she would not be one he takes or transforms against her will. In The Werewolf Genome, Brody is a werewolf whose life is perfect until his brother gets into some trouble with the government. Seems someone's out to steal his DNA for a sinister purpose and Brody means to get him back. Serena is a soldier, wary about helping her fellow troops carry on a specific mission: one that involves a seemingly human hostage. So when Brody infiltrates Serena's base, she's willing to cooperate with him, especially because he's hotter than any man she's ever met. Will Serena be able to lead Brody back to his brother? What does the government want with the werewolf hostage? As Brody falls deeper for Serena, will their relationship cause turmoil and end in the death of Brody's brother? Things get steamy as the

imminent war gets closer. Its just a matter of whos smarter or stronger. The Army, or the wolves? Which side will Serena choose in the end? In Untamed Heart, Devon comes into her life and tells her that she has been bitten. He has the cure, but will only give it to her if she performs a couple of tasks. The last one will be to kill the Alpha, namely Chris.. Can she truly kill the man that she supposedly loves for the chance at a normal life? Was it love, or was it the heat due to the wolf lurking within? In Playing with Fire, 22-year-old Mia was dreading going to the UK on vacation. After all, why would she be pleased about leaving Idaho, USA? The whole trip had been planned around her meeting Tyler her soon to be stepbrother. Her mom Rachael and Tylers dad David had planned the whole trip to Newquay in Cornwall; even the name didnt excite Mia. In Fever, More than one hundred thousand hungry souls sat waiting in the darkness for just a spark, something to quench their insatiable desire for the goddess of flame--that fiery temptress that consumed their senses. She appealed to not only the most carnal desires of lust and love, but also the human desire to aspire for more. She inspired the heart and moved the body. In Together Forever, Callie and Brent were young lovers in high school that couldnt be separated. Callie loved him more than anything else, but things changed, Brent changed. He became distant and the two broke up promising to stay friends.
