

Zone One

A pandemic has devastated the planet, sorting humanity into two types: the uninfected and the infected, the living and the living dead. The worst of the plague is now past, and Manhattan is slowly being resettled. Armed forces have successfully reclaimed the island south of Canal Street aka Zone One and teams of civilian volunteers are clearing out the remaining infected stragglers. Mark Spitz is a member of one of these taskforces and over three surreal days he undertakes the mundane mission of malfunctioning zombie removal, the rigours of Post-Apocalyptic Stress Disorder, and attempting to come to terms with a fallen world. But then things start to go terribly wrong
